

Notice of Public Open House

Proposed Municipal Marina, City of Quinte West

The City of Quinte West is conducting an Environmental Assessment under the *Environmental Assessment Act* to investigate the development of a municipal boating marina at the mouth of the Trent River and Bay of Quinte.

A Public Open House Meeting is scheduled for:

DATE: THURSDAY, 28TH JUNE, 2012
TIME: 4:00PM TILL 8.00PM
LOCATION: COUNCIL CHAMBERS
CITY OF QUINTE WEST CITY HALL
7 CRESWELL DRIVE,
TRENTON, ON

The Public Open House will consist of an informal drop-in format, during the hours shown above.

The Study:

The City of Quinte West is undertaking a study under the *Environmental Assessment Act* to investigate alternative locations for the development of a municipal boating marina at the mouth of the Trent River and Bay of Quinte. The proposal would provide a strategically located public recreational facility that would enhance the City's waterfront lands, develop increased public waterfront access, and assist the local economy with respect to its diversity and success.

The Process to Date:

On March 27th, 2012, the Minister of the Environment approved the Terms of Reference for the City of Quinte West Marina, Environmental Assessment. The study will be carried out according to the approved Terms of Reference, and the requirements of the *Environmental Assessment Act*. A first Public Open House was held on May 30th, 2012, to present information on the existing environment within the project study area, and the evaluation criteria to be used in selecting a preferred alternative location and design.

This Public Open House:

This second Public Open House meeting for the Environmental Assessment, will present, and seek input on a range of possible alternative locations, within the study area, for the project. Information will also be presented on the technical evaluation of these alternatives, and their potential effects on the environment, using the defined evaluation criteria.

A subsequent (third) Open House meeting will present the preferred solution, and marina design concepts for review and input. It is intended that there will be three separate Public Open House events at significant project milestones, during this Environmental Assessment.

Consultation:

You are invited to attend this, and future Public Open Houses to review and comment on the information displayed, or the project in general. The study team of City staff and project consultants will be available to answer questions, and there will be opportunity for both verbal and written feedback. Your input is an important element of the Environmental Assessment planning process

If you would like to be added to our project mailing list, or have project related questions please contact:
